Diversity and Inclusion Statement

As REALTORS®, GFWAR members have the ability to reach every member of our society, as all need shelter and "under all is the land." Regardless of race, color, gender identity, religion, age, sexual orientation, ethnicity, abilities, nationality, socio-economic status, political perspectives, or any other qualities by which we may define ourselves, we at GFWAR embrace people from all backgrounds.

Our staff and our members will strive to educate ourselves and work to understand other perspectives and experiences through listening, interacting, and reaching out. Through our efforts, we hope to better serve our community and our members, and create a welcoming environment dedicated to equity and inclusion for all.
